“India, Germany and all other countries in Asia-Pacific and Europe must move together on a path for industrial development with more resource conservation and climate protection. That requires smart minds and a lot of creativity to develop forward-looking solutions. At the conference, we will be joined by many inspiring people from Asia-Pacific, the EU and Germany.

We will explore how we can shape our industrial future, while improving social inclusion and climate and environmental protection. Join us at the Asia-Pacific Conference of German Business 2024 in India!”

“The Asia-Pacific region is a global powerhouse for cutting-edge technologies and innovation and it offers manifold market opportunities for companies across industries. To mutually utilize this potential and to jointly address global challenges, constant dialogue is key. The APK provides a unique platform for ongoing exchange. It facilitates thought-provoking discussions, for example on industrial excellence or resource conservation by connecting business leaders, policymakers and Think Tanks.

Let’s meet in New Delhi to discuss new ideas towards a sustainable future for our societies.”
